SUMMARY

I am a motivated Python Full Stack Developer (Fresher) currently seeking an opportunity to start my career in web development. I have a strong foundation in front-end and back-end technologies and am eager to apply my skills in a real-world environment while continuously learning and growing as a developer.

EDUCATION

BSC,computer Science.

Tiruvalluvar University

📅 2022 - 2025

SKILLS

Python Fullstack Html Js Css Sql React

Bootstrap

LANGUAGES

TAMIL ●●●●● ENGLISH ●●●●●

Native Advanced

PROJECTS

Dj Management System

- Event type selection (Wedding, Party, etc.)
- DJ company listing with pricing
- Date selection and booking functionality
- User-friendly interface for quick reservations
- **Project Description:**

Developed a web-based DJ event booking system that allows users to select event types (such as weddings), choose DJ service providers, and schedule bookings by selecting a preferred date. The system displays available DJ companies along with pricing details (e.g., DJ Thunder Beats – ₹15,000), enabling users to easily book services through a simple interface.

TRAINING / COURSES

SOFT LOGIC SYSTEM

Python fullstack

INTERESTS

Seeking an opportunity in the field of software development where I can apply my knowledge of programming and continuously improve my technical skills while contributing to organizational growth.

KEY SKILL

- Proficient in using Generative AI tools with confidence for development, debugging, and problem-solving
- Experienced in AI-assisted web development using Replit
- Familiar with AI-powered coding tools like Cursor for efficient development
- Strong knowledge of API testing and debugging using Postman
- Skilled in version control using Git and GitHub
- Experience working with project management tools like Jira
- Ability to debug code efficiently and optimize application performance
- Good understanding of web development technologies (HTML, CSS, JavaScript)
